

***Killeen Independent School District
Board Agenda Item Information Sheet***

Date: September 7, 2021

Agenda Item Caption: 2021 District and Campus Academic Accountability Rating

Purpose of Agenda Item: Information only

Administrative Recommendation: None; for discussion.

Background Information: Each year, the Texas Education Agency (TEA) assigns campuses and districts a state accountability rating. The ratings are based on student academic performance, college/career/military readiness (CCMR), and graduation rates. For the 2020-2021 School Year, TEA has declared all campus ratings as “Not Rated: Declared State of Disaster.” TEA is measuring specific components of each domain as a reporting measure only. There will not be any A-F grades. Reported elements will be State of Texas Assessments of Academic Readiness (STAAR) Performance, CCMR, Graduation Rate, English Language Proficiency, Academic Achievement, and Participation Rate. Districts and campuses will retain their ratings from 2019 unless they met the alternative measures established by TEA or if they met the graduation criteria for exiting comprehensive support. Targeted improvement plans (TIPs) will not be submitted to the state this year. TIPs will be created, implemented, and maintained at the local level and will not require Board approval for this year only. Campuses who require the local improvement plans will be supported district coordinators who are specifically trained to aid to support this process.

The Texas Education Agency released ratings in August 2021 and posted masked data for public viewing on August 30, 2021.

Fiscal Analysis: None

Regulatory Requirement: None
