Memorandum Item 10e

FOR: School Board Members
FROM: Chris Reitan
DATE: September 22, 2021
SUBJECT: Spring 2022 AK Stars and Alaska Science Assessment Summaries

During the spring 2022 semester some CCSD students engaged in the new AK Stars Assessments and the Alaska Science Assessments. Included with this memo are summary reports that outline how CCSD students performed compared to the district average and their statewide peers in English Language Arts, Math, and Science. District wide, CCSD generally performed above the statewide averages in ELA, Math, and Science.

The spring 2022 testing window is the first time the state utilized the AK Stars testing platform which is connected with NWEA MAPs. Moving forward it will be important to analyze CCSD's longitudinal growth on these assessments to determine specific areas within our content areas and instruction that present themselves as opportunities for improvement and then develop specific plans to address.

Suggested Motion: This is an information item. No motion for approval is required.
