Re: Review of Bid Results for Stevenson Phase II

The re-bid for Stevenson High School Classroom and HVAC Upgrades was opened on Friday, March 22, 2013. Currently the bids are being analyzed and the construction manager is completing the due diligence on the contractors.

We have attached the initial bid tabulation sheet from the March 22, 2013 bid opening. This is for your information only. We will prepare a bid summary and budget schedule for the Board to review and discuss at the April 8, 2013 Building and Site Committee meeting. We will have a summary available in the board packet next week for the Board to have an opportunity to look at before the meeting.

I will be in the office a few days over the upcoming Spring Break and checking my email so please feel free to send me any questions or concerns you may have.
