MEMORANDUM

TO:	SHARON ROSSITER
FROM:	TIM JONKE
SUBJECT:	VMWARE PURCHASE
DATE:	9/12/2016

SPEED is looking to purchase Academic VMware vSphere software and two new Dell Host Servers. This upgrade is necessary to ensure safety of data and efficient recovery. Based on our Disaster Recovery Plan this is needed because we are currently vulnerable to loosing data in the event of a crash. The current system is six years old and has proven to be unreliable.

After receiving quotes from several vendors, Storage IT Solutions offered the most competitive cost of $5,664 for VMware and $9,749 for two Dell Host Servers. This includes installation, maintenance, and ongoing support and was included in the FY17 budget.

Recommendation: That we update our servers and software that are out of warranty, to aide in the recovery of data should it become necessary.
