

Dear, Dr. Adams

Hello my name is Kacie Kirkwood I am currently a college student at Central State University located in Wilberforce Ohio. I am studying medicine at this time. My major is Biology with a minor in Chemistry. I have attended Central State University for 2 years now. My goals is to pursue to be a neurologist. After I graduate I plan on going straight to grad school. I came to Central with a scholarship in band. I play the clarinet and been playing for 13 years now. While attending Central State University I have did plenty of community service with a former professor of mines that goes by the name of Dr. Lowe. She was my Biology professor during my freshman year of college. Dr. Lowe was my work supervisor during my freshman and sophomore year. She's always gave me great feedback on my working abilities. I feel I can bring a lot to the School District of 152. My working abilities and me as a person catches many people eyes. I've worked hard in each job I have had. I have worked for the Harvey Park District last summer, and also

the Harvey Police Department. I believe I can bring a lot of joy and dedication to School District 152. I am a very confident young lady. I am pleased with the education I have received at Central State University, as well as the invaluable learning experiences this institution has made available to me that have expanded and strengthened my education. I highly recommend myself on the position here at School District 152 where it's all about the children.

Sincerely, Kacie Kirkwood
