Maintenance Board Report 08.24.22

It has been a busy summer with a lot of great accomplishment. A lot of work went into High school this summer. The hallway and kitchen hallway were completely gone through, patching any sheet rock damage followed by a new coat of paint along with three classrooms. In the English classroom we removed the old wall mounted computer lab table, moved electrical, sheetrock work, build a new radiant heat cover, built a built-in bookcase, installed three white boards, installed a new smart projector and painted the room. The science room was deep cleaned, all lab tables completely gone through, waxed and polished the floors followed by a new coat of paint. All carpets were cleaned, the kitchen hallway and the commons were stripped with a new coat of wax and the gym floor was polished.

The middle carpets were cleaned, and the gym floor was polished. Parking lines and walkway lines were all painted at the middle and elementary school. The elementary school carpets were cleaned, and a few classrooms were painted. We installed some new white boards and performed standard maintenance repairs throughout.

All three busses have new tires installed and are ready for the school. This summer I was able to add Bus and passenger endorsements to my CDL. This should help cover routes when a driver is absent.

Summer went fast, but with a great crew to work with a lot was accomplished.

Daniel Nelson
Maintenance Director.
