

## **MONTHLY FINANCIAL STATEMENT SUMMARY JANUARY 2026**

### **PAGE 1-1a General Fund**

The main sources of this fund are State Aid and local tax revenue. These dollars are used for the primary operating costs of the district.

#### **Points of explanation for this month:**

##### **Revenues:**

All revenues are on track for this point of the fiscal year. Budgets are not spread to individual revenue accounts. This will be done with the budget revision.

##### **Expenditures:**

All of the 300 level expenditures combine and are a part of the Community Service category

### **PAGE 2- Grant Fund Revenues and Expenditures**

This report shows all funds that come in from grants- local, state, and federal.

#### **Points of explanation for this month:**

The line item 24X is associated with the Executive Director for partnership schools. A budget will be added during the budget revision. There is a line that has a dollar amount for \$190,099.99 associated with no row title. That line combines with Community Activities. The majority of revenue in this fund comes in the form of reimbursements. This means that we spend money and then submit documentation of the expenditures to the funding source after the fact in order to receive payment. Although this fund currently shows a loss, this is a result of pending reimbursements. At the end of the fiscal year, revenues and expenditures will equal.

### **PAGE 3- Vocational Ed Fund**

This report shows the revenue and expenditures for Saginaw Career Complex. The primary source of revenue is generated from student enrollment- both in district and out of district.

#### **Points of explanation for this month:**

The \$133,191.93 that you see on a row with no budget is the expense for the SCC boiler replacement. This was billed to the ISD and paid. This expense will be zeroed out.

### **PAGE 4- Bond Reserve Fund**

We previously moved some of our teachers to ESSER funds under "Continuity of Services". This allowed the district to set general fund dollars aside to offset the additional costs of the bond projects due to inflation. This fund is where those general fund dollars were recorded. Although we are no longer doing this, we have continued to use this fund for the remainder of the expenditures for the bond projects.

#### **Points of explanation for this month:**

Any expenditures in this fund are payments on bond projects.

## **PAGES 5a-5c: Combined General Fund, Grant, Voc Ed, and Bond Reserve Fund Revenues and Expenditures**

This report combines the previous four reports. This is how these funds are presented in our annual audit report. All of the previous four reports actually comprise the official general fund for auditing purposes.

### **PAGE 6: Food Service Fund**

This report shows the revenue and expenditures for food service. At this time, we are a part of the Community Eligibility Program. This means that most of our revenue is federally funded. We turn in the claims for meals served and then receive reimbursement. There is a small State component of revenue for the Fresh Fruit and Vegetable grant and some State Aid categoricals.

#### **Points of explanation for this month:**

No unusual activity

### **PAGE 7: Trust and Agency Fund**

This is the sum of the building activity funds. There is only one entry that will affect this fund and it is made at fiscal year-end. This fund is for audit purposes only.

### **PAGE 8: Debt Service Fund**

The revenue from this fund comes from the taxpayers. This is where the millage funds paid from taxpayers are recorded. The expenditures to this fund are associated with paying the debt payments. The debt payments will be recorded as the audit progresses.

#### **Points of explanation for this month:**

The minimal activity in this fund at this time will be reclassified.

### **PAGE 9: Capital Project Fund**

Revenues in this fund are a result of the general fund transfers. The expenditures are the monies spent on capital projects- both bond and from the designated capital project allocation.

#### **Points of explanation for this month:**

The loss showing in this fund is just a result of transfer from general fund not yet booked. The transfer is typically booked at the end of the fiscal year.

\*\*\*\*\*

**The above reports show the monthly snapshot of each of these funds. The remaining reports are balance sheets for the same funds. Balance sheets summarize what has happened from the beginning of the fiscal year up to the current month.**

**A key difference with the new system is that the beginning balance is based on what was booked the prior month instead of using the beginning balance from the beginning of the fiscal year. Overall, it still gives a picture of the current financial status of the district.**
