

## **Activities/Community Education Report for February 2026**

February marks a time of transition in the Community Education department as we prepare for our spring/summer programming to come out via our website and brochure which will be in the mail by the end of the month. Residents will be able to register for the new program offerings in several different ways including online, by US mail, by phone, or in person at the Community Education office. Any questions can be directed to the Community Education office for further information.

We are also continuing to work on our rebranding of the Community Education department. Our advisory council has worked hard on coming up with a new mission statement along with several core values that will guide our future plans and programs. We are currently working with Mr. Voeller and his business marketing class to create a new logo that we hope to unveil this summer as we prepare for the 2026-2027 school year.

Wolves winter athletics are into the final weeks of their seasons as we hit mid-February. Girls and boys hockey along with wrestling are all in their section tournaments this week. WHA will be hosting the Section 7A team tournament for wrestling on Saturday, February 14. Girls and boys basketball will round out the winter tournament season with their playoffs beginning at the end of the month and into March. The Walker Talkers' speech team's season is now well underway. WHA will host the annual Chuck Beckman invitational on Saturday, March 7th.
