The graph below shows the construction trends requiring voter approval for the last 6 fiscal years. The top line shows the total dollar amount of school construction projects requiring voter approval. The bottom line is the dollar amount approved by local voters. The total excludes alternative facility and other construction projects that do not require local voter approval. FY 2010 is estimated waiting the results of the November 2010 elections.

The image shows a large rectangular area filled with a grid of dotted lines, typical of a composition notebook. The grid is composed of 20 columns and 30 rows of small squares. The entire grid is enclosed within a solid black border. There are two vertical solid lines that create margins on the left and right sides of the page. The text 'MSBA' is printed at the top center of the page, above the grid.

The image shows a large rectangular area filled with a grid of dotted lines, typical of a notebook page. The grid is composed of 20 columns and 30 rows of small squares. The entire grid is enclosed within a solid black border. There are two vertical lines that create margins: one on the left side and one on the right side, each positioned approximately one-fifth of the way from the respective edge. The text 'MSBA' is printed at the top center of the page, above the grid.
