

BUILDINGS/GROUNDS & TRANSPORTATION REPORT

Date: Dec 16, 2019
To: Board of Education
From: Jeff Stauder

BUILDINGS/GROUNDS

Facilities Committee

The Facilities Committee will meet on January 15, 2019 in the Lincoln School conference room at 5:30 P.M.

Jr. High sewer

Hilton Plumbing has the line open, however the job is not complete at this time. They still have a small piece of the pipe that was lodged in the line to remove yet. Once all of it is removed the hole will need to be filled into fill in and level off the dirt. In the spring we will have to level the dirt again and seed the area. I'm hoping that this problem will not have to be revisited for a long time.

Jr. High Project

I mentioned last month that the Jr. High had a little work to be finished up. The partitions in the boy's restrooms needed to be repaired and a new door for Mr. Schmitz's room had to be put up. These projects have been completed.

Christmas Break Work

The maintenance staff will be busy working on numerous projects throughout the schools over the break. One of the bigger projects that will take place is at Lincoln. We will be installing new water lines to correct elevated lead levels in the water. Right now we only have two fountains that can be used.

Transportation

Bus/Van Purchase

Last month I mentioned looking into pricing for a couple new vans and replacing three buses witch come off lease in July. As off today I do not have any numbers to report.
