Andrew Shaver | Co-Founder

About Community Solar Authority

With over a **decade of combined experience** in the Community Solar space, we've been helping large consumers of electricity access the program to **lower electricity costs** since day one.

The most significant solar developers in the country utilize CSA to bridge the gap between available solar incentives and organizations like yours. We leverage our Community Solar marketplace to **streamline access, maximize your savings, and deliver turnkey savings** in under 90 days.

This is our path forward to leverage our process to get you access to community solar, **hedging electricity inflation for years to come**, and enhancing business sustainability - all on a \$0 investment.
