Summer School 2020: Planning has started for summer school. Summer school will be Monday-Friday, June 15-26th 9-2:50 p.m.

Elementary Stem Class – Mrs. Denise Lechleitner is teaching elementary stem classes. We recently received a donation from Brian Viegut of VIEGUT'S DO-IT EXPRESS for \$500 that we are using to help purchase supplies for the STEM classroom. The pictures below show some examples of the engineering and problem solving that have been happening in this class. Mrs. Lechleitner is doing an excellent job connecting the learning in her class to the instruction that is happening in the elementary classrooms.
