Osprey Wilds overnight trip is this something we would like to try?

3 days, 2 nights

175 per person

Open Dates: April 1-3, 8-12, 10-12

They can do mixed groups

We need to find out how many students may be interested.

There is another group already working on this. Becky will reach out to Holly and Sheila to see were they are in the process and how I can help.

Would it make sense to offer this trip as an option for high school students as an alternative to MESS-E

ELP at a glance: What are we doing in each grade band for the indicators? Where do we need to focus more attention? Do we need more information?

We have really good coverage in all areas of our indicators. Can we find ways to add more information about energy?

Can we link ground water and surface water together, including how they are linked together?

Changes in the ELP for next year - Changing to earth and space science Indicator 2 will need to be changed.

February Teacher survey? What to include  
We will draft this at the February meeting

No January meeting. At our February meeting, we will draft a teacher survey and discuss Osprey Wilds overnight updates.
