Re: Churchill Construction Bids

We would like to discuss the bid responses received for the construction project at Churchill High School during the next Building and Site Committee meeting on Monday, March 6, 2017.

The RFB for the construction project at Churchill High School was made available on January 23, 2017. The bid responses were due on February 10, 2017. We received more than 90 responses and CRESA has reviewed the information and interviewed the bidders. The process for evaluation will be in accordance with the criteria that were established previously.

The bid responses were reviewed with Board members at the February 27, 2017 Study Session. On Monday, March 6, 2017, at the Building and Site Committee meeting, Plante Moran CRESA will present an in-depth overview of the results of their evaluation to the Board of Education and provide recommendations for next steps in the process of selecting the vendors for the construction project at Churchill High School.

Due to time constraints, a special voting meeting will be held on March 6, 2017, at the conclusion of the Committee of the Whole Meeting. As always, please let me know if there are any additional questions.
