SLIDESMANIA.COM

What is GoGuardian Fleet?

Easily track, assign, and report on your district's Chromebooks.

SLIDESMANIA.COM

Damage and repair tracking

Get detailed device repair ticketing information, including loaner device replacement status.

Device location tracking

Know exactly where your Chromebooks are at all times, no matter their device status.

Quick assign and unassign

Fast-track your device deployment process, and save valuable time with bulk barcode scanning.

Advanced data management

Select the device data points you want to view, with full device information at your fingertips.

Bulk editing capabilities

Effortlessly import existing device and student data, and edit in bulk with ease.

Robust inventory reporting

Easily download custom reports on both device data and device repair status, and export for sharing.

GoGuardian Beacon

SLIDESMANIA.COM

What is GoGuardian Beacon?

Beacon is **a machine-learning solution that notifies pre-determined school staff of instances** where students may be at risk of suicide, self-harm, or potential harm to others. Beacon was designed to help school staff proactively identify at-risk students and quickly facilitate a response.

GoGuardian Teacher

SLIDESMANIA.COM

What is GoGuardian Teacher?

GoGuardian Teacher is **a classroom management tool for Chromebooks**. It allows teachers to see what is on the screen of every student in their classroom. They can see the active tab the student is currently looking at, as well as any other open tabs in the browser.
