

**GOVERNING BOARD AGENDA ITEM  
AMPHITHEATER UNIFIED SCHOOL DISTRICT NO. 10**

---

**DATE OF MEETING:**      **May 10, 2022**

**TITLE:**    **Recognition of Rio Vista Elementary School Robotics Club**

---

**BACKGROUND:**

The seven members of the Rio Vista Elementary School Robotics Club have worked on Fridays after school all year to create JACZBOT, a life-sized robot that talks, stretches, mirrors actions and can hold and drop a ball.

The club downloaded plans shared on the internet by an inventor in France to build their robot. They used 3D printing for each piece, assembled the parts and then used their coding skills to program the robot. While engineers and inventors from around the world are creating their own versions of the robot, the Rio Vista fourth- and fifth-graders are the only children who have taken on the project.

Robotics Club Members:

**Jayden Murillo**  
**Jessayra Corella**  
**Julio Estudillo Cortez**  
**Atticus Brown**  
**Cora Jernigan**  
**Cassandra Sennett**  
**Zyler Miller**

Advisers:

**Maggie Morales**, Teacher  
**Monique Cortez**, Classroom Aide  
**Steve Kuhn**, Technical Advisor

---

**RECOMMENDATION:**

This is presented for the Board's information and recognition.

---

**INITIATED BY:**

Michelle Valenzuela, Communications Director

Date: May 4, 2022

Todd A. Jaeger, J.D., Superintendent
