

2020 ILLINOIS REPORT CARD

Metrics Affected by COVID-19

The suspension of in-person instruction during the 2019-20 school year affected multiple Report Card metrics. The Illinois State Board of Education has added data qualifiers to indicate the affected metrics as superintendents view district and school data in the Educator Preview. For some metrics, such as assessments, ISBE collected no data for the 2019-20 school year. For other metrics, such as chronic absenteeism, ISBE collected data, but the suspension of in-person instruction likely impacted the results.

New data qualifiers on the Illinois Report Card will indicate one of three statuses for metrics affected by the suspension of in-person instruction:

1) Data Unavailable Due to COVID-19

Description: Due to the suspension of in-person instruction during the 2019-20 school year, the data for this metric is unavailable for use in the School Year 2020 Report Card.”
