

SUN Community School

Building a Common Understanding and Vision

"Could someone help me with these? I'm late for math class."

Part I: Intro to the SUN Service System

An aligned **system of care,
providing the social and
educational support services
to youth, and families, that
lead to **educational success
and self-sufficiency.****

SUN Vision & Mission

Vision

SUN is a community that effectively engages and supports all children and families so they are healthy, educated and prosperous.

Mission

To collaborate to create an efficient system of supports that provides equitable opportunities for every child and family to thrive.

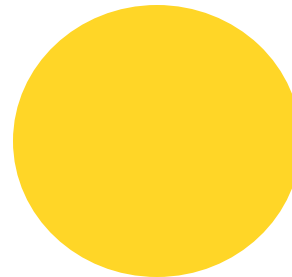

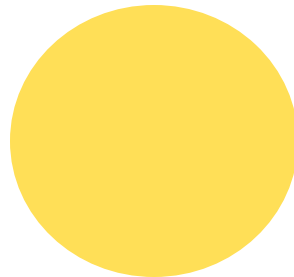

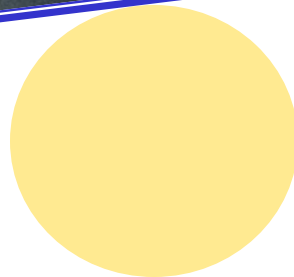

What does it mean to be a SUN Community School?

SUN Community Schools

A Strategy Not a Program

A Community School is...

A school **where the school community and partners** from across the broader community **come together** to educate and support kids creating a collective impact

And where...

- Community resources are **strategically organized** to support student success
- There is a **focus on the whole child**, integrating academics, services, supports and opportunities
