Hello again Don,

I know you said you were leaving on Sunday so I don't know if you will get this right away but I wanted to let you know depending on when a po is cut for these items we could piggyback of the ppe orders onto the janitorial orders that should be shipping in the next couple of weeks.

I did get the freight costs for going to each location and it wasn't as much as I thought. Here is that updated spreadsheet.

Thank you,
Jamie
