TO: Robyn Burke, President
Members of the School Board

THROUGH: David Vadiveloo, Chief School Administrator *DsV*

THROUGH: Rick Luthi, Chief Operating Officer

FROM: Bernadette Fischer, Director of Maintenance & Operations *BF*

DATE: February 27, 2023

SUBJECT: Harold Kaveolook School Design Approval

**Memo No: SB23-131
(Action Item)**

NSBSD Strategic Plan:

4.1 Facilities: Establish safe, modern and high-performing learning facilities.

Issue Summary:

The conceptual design of the Harold Kaveolook School presented needs to be approved this month in order to meet tight deadlines of moving forward with site work this summer that needs to be completed before the installation of the thermopiles. Once this is approved, the design documents can be finalized and put out to bid for the civil site work and piling installation this summer and fall to prepare for the construction of phase I.

Background:

In February of 2020, the Harold Kaveolook School burned down. Since then, insurance proceeds have been secured by the North Slope Borough for the interim facilities and the design of the replacement school as well as funding for the first phase of construction. A design contract with Burkhart Croft Architects was established in January of 2022. While undergoing the design process, there have been multiple community meetings with presentations of the proposed design. The concept drawings provided have been approved by the community during the most recent community meeting on February 23, 2023.

Proposed Motion:

“I move that the NSBSD Board of Education approve the design for the Harold Kaveolook School presented by Burkhart Croft Architects dated February 23, 2023.”
