Performance Dashboard

Technology Department

Eric Conklin, Director of Technology

Technology Department

1:1 Laptops

- Laptop collection will begin on Monday, June 8th. Every laptop will be inspected for any damages or issues to resolve over the summer.
- Letters are going home to inform families of laptop returns. Letters are also going home regarding laptop damage responsibility.
- Collecting results from laptop feedback/satisfaction survey from staff, students, & parents
- IT is trying their best to keep up with all the issues/problems and fix laptops in house as well as balance every day needs of the district
- LMC at DHS handling day-to-day laptops issues and management is working well. Looking to implement similar system at DMS.

Technology Department

Ongoing/Other Projects

- As Smarter Balanced testing comes to an end, IT is now supporting NWEA testing as it begins. Tech issues have been under control.
- Supporting student laptops at DMS and keeping up with any issues as students are using Edgenuity for ILPs.
- Building Google Apps for Education account and adding users. Exploring utilizing Google Apps instead of Office 365 for the 15-16 school year.
- Addressing and repairing student laptop issues.
- Supporting & assisting Business Dept. during implementation of Paychex time and payroll system.
- Preparing technology for the end of the school year and/or summer storage

Technology Department

Ongoing/Other Projects

- Supporting needs of and setting up AV equipment for the school play on 5/21 & 5/22. Providing technical support for play directors.
- Daily helpdesk request and troubleshooting as needed.
- Computer shutdown policies are being rolled out to remaining computers, and we are seeing more energy savings. It will only improve as we continue moving forward.
- Supporting hardware/software needs for Yearbook, Digital Photography, Graphic Design, & Accounting Classes @ DHS
- Purchasing & installing new audio/video equipment for DHS auditorium. Awaiting approved PO from city for speakers.
- Professional Development and training for staff as needed.

2015-2016 Technology Grant

Technology Department

- Due to an error at the state level during the grant grading, all grants applications were declined.
- State will reopen the grant for districts to reapply by the end of the month.
- Plan to utilize the same application that has been submitted, with additional technology added.
- Added technology includes desktop computers for DMS, iPad carts for Bradley & Irving, and more laptops for the district.
