#### **Comments**

Planning for summer projects has begun along with finalizing budget items for 22-23. We have been transitioning to outside tasks around the campus and the athletic fields, hopefully mother nature starts to cooperate! We are continuing to meet and work through the early stages of the data collection and developmental stages of the process with Sitelogiq. Thus far, it has been a very beneficial and interesting process that will provide very valuable data and information for the district moving forward.
