

# Special Enrollment

## Your Health Idaho

Outside of Open Enrollment, you may still be able to purchase health insurance coverage through Your Health Idaho. If you experience certain Qualifying Life Events – like moving or having a baby – you could be eligible for a Special Enrollment Period, which allows individuals and families to enroll in health insurance coverage. If you are already enrolled with Your Health Idaho, a Special Enrollment Period would allow you to make changes to your existing insurance plan.

If you believe you have a Qualifying Life Event that might be eligible for a Special Enrollment Period, you have 60 days from the date of your event to complete the following:

1. Report your Qualifying Life Event. (Employer no longer offers coverage for purchase for dependents)
2. Provide documentation to prove the event and enrollment eligibility.
3. Select and enroll in a plan.

The Qualifying Life Events listed below could be eligible for a Special Enrollment Period. Select the event that best represents your situation to see a brief description and required documentation.
