

Harvey Public Schools District 152 has submitted the TBE/TPI and Title III application for the first time on **August 23, 2018**. The grant is divided in 5 different categories two of which we receive our money from: Transitional Bilingual Education/Transitional Program of Instruction and the Language Instruction Educational Program. The following is a brief synopsis of both parts of the grant.

### **Transitional Bilingual Education/Transitional Program of Instruction (TBE/TPI)**

Currently no information is required in this section of the grant. Funding is now included in the Evidence Based Funding (EBF) formula. The funds are based off the last 3 fiscal years of the grant. Unfortunately this is the first time the grant was submitted so there is no data for District 152. Looking at the report for the FY-18-Allocation Reporting English Learners (EL) the amount that will be allocated is \$10,353.43. My estimates is that this amount would have been between \$127,000 to \$150,000 had the District submitted the grant.

### **Language Instruction Educational Program (LIEP)**

The purpose of the Federal Title III LIEP (formerly known as LIPLEPS) grant is to provide supplemental financial assistance to help local school districts improve the education of English learners (ELs) above and beyond state and local requirements by assisting students to learn English and meet challenging State academic content and student achievement standards. Title III funds may be used to provide language instruction and school adjustment services to meet the needs of English learners (ELs), professional development and training for staff serving ELs and to involve parents in their children's education. The amount of this part of the grant is based off the number of EL students and the services being provided to them. The amount allocated for this portion of the grant is \$36,900. Please see attachment of **LIEP Budget detail**.
