Annual Portfolio Review for 2024

According to Policy CDA (Legal) and CDA (Local), an annual review shall be presented to the Board of Trustees regarding the investment program, investment activities, and strategy.

Investments in the State of Texas are governed by Chapter 2256 of the Texas Government Code. All investments made by the District shall comply with the Public Funds Investment Act and all federal, state, and local statutes and regulations. The Board of Trustees must act upon an annual review of the District's investment policy and strategies.

An investment comparison, including yield, is attached.

Kaufman ISD uses four (4) different investment vehicles, including Lone Star, TexPool, Texas CLASS, and American National Bank (ANB). Depending on current yield and projected cash flows, we invest our cash in each vehicle. Our general funds were most heavily invested in ANB to accommodate purchasing and payroll needs, with diversification opportunities in the other three (3) pools mentioned above. Our bond funds are most heavily invested in Texas CLASS, and funds are transferred to American National Bank as needed for accounts payable purposes.

All four investment vehicles are daily liquidity funds; meaning Kaufman ISD has complete access to the funds and may draw down or contribute to them on an immediate basis.

This approach complies with the District investment policy, and KISD plans to continue with this strategy.

2024 was a year that saw interest rates on a slight decline in the investment pools. Toward the end of 2024, Kaufman ISD sold and invested a portion of their voter approved bonds. KISD will continue to monitor rates and will invest funds accordingly to both mitigate risk and maximize earning potential.
