CURRICULUM & INSTRUCTION

At this time, we are making final preparations for BPS Leadership Week to be held in June this year and SBE Week in August. During Leadership Week, the District and School Leadership Teams will be working on aligning the district and school-level action plans in the areas of Culture, Graduation, Safety, and Attendance. Final DRAFTS of the BPS Graduate Profile (BHS) and Profile of a Learner (EK-8) will be developed, as well as completion of the Browning Public Schools Literacy & Learning Plan. All leadership frameworks & documents developed in June will support our SBE Teacher Work Week in August.

3:45-4:00					
4:00-5:00					

Infinite Campus Student Registration (OLR) & Scheduling Workshops

Jocko Parrent and I have been updating and improving the BPS Infinite Campus Online Registration Platform to be offered to parents for registration during the 24-25 SY. In addition to providing parents/guardians the convenience of annual school registration accessible through a digital format, the process of online registration will improve the efficiency of the

BPS annual Impact Aid application, school nurse duties of entering student medical needs, gathering parent permission slips for field trips, technology use, and other user agreements, as well as homeless, fostercare, and grand-parents raising grandkids programs.

We are also working on developing master schedules for all schools of the district, rolling courses & grading terms over, as well as improving reports for school leaders through better course development.

ASSESSMENT

Submitted by:

Violet Sincliar-Boggs-District Test Coordinator
