

Lincolnshire-Prairie View School District 103

Memo

To: Board of Education
From: Dr. Craig Chatham
CC: Dr. Scott Warren
Date: December 5, 2024
Re: Technology & Assessment Executive Summary

Daniel Wright Guardian Summaries (in Google Classroom)

- The shift to enabling Guardian summaries has been going well.
- I am only aware of two reported issues from the guardian side. One ended up being a misunderstanding where the individual thought they should be logging in to Google Classroom. The other issue involving a guardian not receiving email summaries is currently being worked on and will be resolved as soon as possible.

Assessments

- The AAPPL Assessment is being administered to 8th graders at Daniel Wright Junior High School on December 6. Results from this Spanish language assessment are shared with Stevenson High School for the purpose of placement in Spanish classes.
- The Reading portion of the MAP assessment is being administered to 8th grade students at Daniel Wright Junior High School on December 5. Results from this assessment will be shared with Stevenson High School for the purpose of placement.

AI

- Since the AI evaluation team is coming together on the afternoon of Thursday, December 5th, I do not yet have additional information to share with you regarding AI in D103. I plan to provide more information for the January Board meeting.

Network Upgrade at Daniel Wright

- We are in the process of a network upgrade at Daniel Wright. We installed brand new WiFi access points across the school over Thanksgiving week, and we plan to replace the rest of the hardware this coming summer.
- The changes should improve the overall performance and reliability of our network at Daniel Wright, and it will complete a multi-year project of refreshing all network gear across the district.
