Re: Professional Development

Into Reading

We are requesting targeted professional development specifically designed for our Advanced Learner Program (ALP). The goal of this training is to equip our educators with the tools necessary to deepen and extend the current Into Reading curriculum using components that are available within their resources. It is often difficult to find meaningful professional development that will specialize in meeting advanced learner needs. With the robust number of resources available within Into Reading, it would be beneficial to work with their program coach to better understand how to leverage these tools to extend student learning. This training will include the program teachers, MTSS Facilitator, administrators, and PDS.

Cost: \$4,200 paid with Title II funding.
