Comments

Note: this is to install 7 new cables and associated 7 new Vape sensors, and to install 6 new Vape sensors as replacements to existing Flysense sensors. Additionally, install 2 CD42 cameras - one pointed toward each locker room door - to link with the associated vape sensors for camera integration.

Note: the two CD42 cameras I have quoted are intentionally lower-cost 30-day retention cameras. If you prefer 90-day retention cameras, I can update this quote with that increased hardware cost (about \$1000 more per camera to go to 90-day retention).

Camera licenses have been intentionally omitted from this bid as BPS has unallocated licenses available.

Thanks for letting us bid! - Jeff

Purchase terms

i: 00752970

Additional terms

Hardware installation will be conducted in a craftsman-like manner.

The following provisions will be adhered to by K12 Montana:

PREVIOUS DAMAGE PROVISION

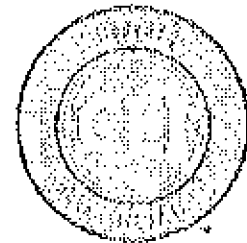

Door frame misalignments, door hinge malfunctions, and other physical door issues cannot and will not be repaired.

NO HIGH VOLTAGE WIRING

High-voltage electrical work cannot and will not be completed.

HAZARDOUS ENVIRONMENT PROVISION

At the sole discretion of the Supplier, Supplier may deem an environment too hazardous, either due to risk of loss of life or limb or other environmental hazard, and may deny working within that environment. In such a case, Customer must, at Customer's expense, seek third party assistance to either A) work in the hazardous environment or B) neutralize the hazardous environment to Supplier's satisfaction.
