

TRANSPORTATION BOARD REPORT FOR

MAY 2025

SUBMITTED BY: WAYNE BULL Calf

Hi all this is my May 2025 board report

So, for the shop report, they had 48 work orders, 45 completed three waiting on parts, they had 2 buss rescues, we had one bus that had a transmission replacement, also we finally got back our carter bus 222 after 4 years, our shop foreman informed me that we are running out of parking space for all buses and district vehicles, we already had 2 accidents happen in the last month, bus vs vehicle.

So, for the office, she is getting ready for 2nd semester bus reimbursements through OPI. Also getting our books ready for Glacier County Meeting in July. We are having a hard time trying to get Heart Butte schools to bring a letter for permission to enter into our district on the Old Agency and Little Badger roads.

As for the trip personal, they reported, 74 bus trips, which are sport trips, field trips, and college visits, with all these trips it's starting to burn out some of the drivers, I can tell cause there getting sick more often, but I do have a great team that know how to pick up the slack.

So, for the disciplinary department, they reported that there were 20 written referrals, and 4 removals, but with the 4 removals we did make contacts with the school to give them a chance to stay on the bus.

This is my May board report thanks for reading God bless you all.
