

Curriculum Director Report
July 21, 2025

SB1672

This bill was passed requiring all students in the 2026-27 school year to screen all students in K-3 for dyslexia in the first 30 days of the school year. Mr. Metzger, Mrs. Matthews, and I are exploring screeners. NWEA MAP and Aimsweb both offer screeners. We are going to see if they will offer us a free trial this school year to test a sample of students. That way we can find the best product that meets our needs. Both of these products are add ons, so this will be an added cost.

Grants

The Agricultural Incentive Grant is for \$3110. Last year it was for \$5455, so it is \$2345 less than last year. The 3 Circles Ag Grant was for \$160 more. This is the grant that pays for all the extra FFA things that they do. So in reality with the pay increases, it really isn't an increase.
