District Wide Free Lunches- Still on going!

We were able to start the free lunch program on October 1st with a grant from the USDA and the Texas Department of Agriculture. The free lunch was going to run through the end of December but we are excited to get to extend it through the rest of the school year 2021-2022. We have seen a steady increase in meal participation and are so excited we can help families in the district.

Breakfast in the Classroom

We have been doing breakfast in the classrooms at the elementary campuses and have received positive feedback from the teachers. Our breakfast numbers have increased and the students enjoy getting to eat in their rooms. We received insulated bags and can offer a bigger variety of hot meals for the most important meal of the day. Even during COVID our elementary participation has remained steady.

Providing meals During COVID

With the recent pandemic creativity was key! SFE offered up to go meals to be able to provide high quality meals and draw participation. Sales have gone down due to COVID but we are very optimistic for the remainder of the year and continue to serve the students of Brownwood ISD and are hopeful for growing participation.
