Subject: board report

Things are progressing nicely with attendance at 97% for the year.

Overall student behavior can be described as excellent.

The students had a good meeting with the new counselor last month. They are looking forward to her next visit this Thursday.

The Cut Bank Fire Dept. is scheduled to visit us Oct. 12. The students are really looking forward to the educational opportunity about fire safety.

A reward field trip is being planned for the students because of their high Smarter Balance scores.
