

BNAS Board Report May 2023

Things are winding down this year and we are excited to kick off our BNAS summer session. The session will focus on Blackfoot Language from 7:00am-12:00pm and curriculum development from 12:05-5:00 (we will have a working lunch). In the mornings we will present the language with the ASLA teaching method while giving aid and support with the Big Bull writing system.

We are currently working on an online dictionary. A link to the prototype is included in the email. The dictionary will be finished by the end of summer and ready for next school year.
