

COMMERCE ISD
BOARD OF TRUSTEES

Subject: Consider and Possible Approval of Resolution Regarding A&M Commerce STEM Laboratory Academy and Issuing Statement of Impact for Generation Twenty-One Chapter Application

Background Information

We met with area superintendents and University representatives and we continue to feel the creation of the university charter school would be detrimental to Commerce ISD. Each of the impacted school districts will be presenting this to their Boards for approval.

Superintendent's Recommendation

I recommend approval of the Resolution opposing creation of the A&M Commerce STEM Laboratory Academy and filing the Statement of Impact.
