Re: Transportation Extension

Background:

Firstgroup America Inc., commonly referred to as First Student Bus Company, provides transportation for Bloomington School District 13 regular education students. We are currently operating in the third extended year of our initial three-year agreement, or in other words, our sixth year. The Illinois School Code 105 ILCS 5/29-6.1 allows for school districts to extend a transportation contract on a year-to-year basis thereafter, so long as the District has not received a timely request for bid from another interested contractor.

Situation:

Bloomington School District 13, when possible, shares its routes with Lake Park High School and Medinah School District 11. Pairing the routes in this configuration allows the District to share services and save tax payer dollars. First Student has issued an offer to extend the contract under the same terms of the original contract date June 1st, 2015, with an increase of 2.5%. Considering the significant reduction in state funding, it is important that expenditures are contained. Negotiating the contractual agreement is one way of containing these expenditures along with reviewing the transportation operations. As costs are essential when considering such an offer, it is important to note that First Student Bus Company has provided safe and quality service to our students. For your convenience, I have attached the extension agreement along with its exhibits.

Recommendation:

The Administration is recommending that the Board of Education approve a 'Student Transportation Services Agreement' with First Student Inc., for the 2020-21 school year.
