RE: Approval of Mississippi Department of Education Grant for Specified Services for the K-3 Universal Screener

All Mississippi school districts received a prorated portion of the cost for the K-3 Universal Screener in Language Arts/Reading and Mathematics. The amount given to each school district was calculated in the following way:

The largest number of K-3 students enrolled last year multiplied by \$3.25.

$$2329 \times \$3.25 = \$7,569.25$$

We are requesting approval of this grant to help defray the costs of the assessment in K-3.
