

Benefits of the SkyYield Wind Farm in LaSalle County, IL

LaSalle Taxes and Landowner Payments

The SkyYield Wind Farm is currently projected to bring in approximately \$90 million to the LaSalle community over the project lifetime. This estimate includes property taxes generated by the project and direct payments made to landowners.

Community Jobs

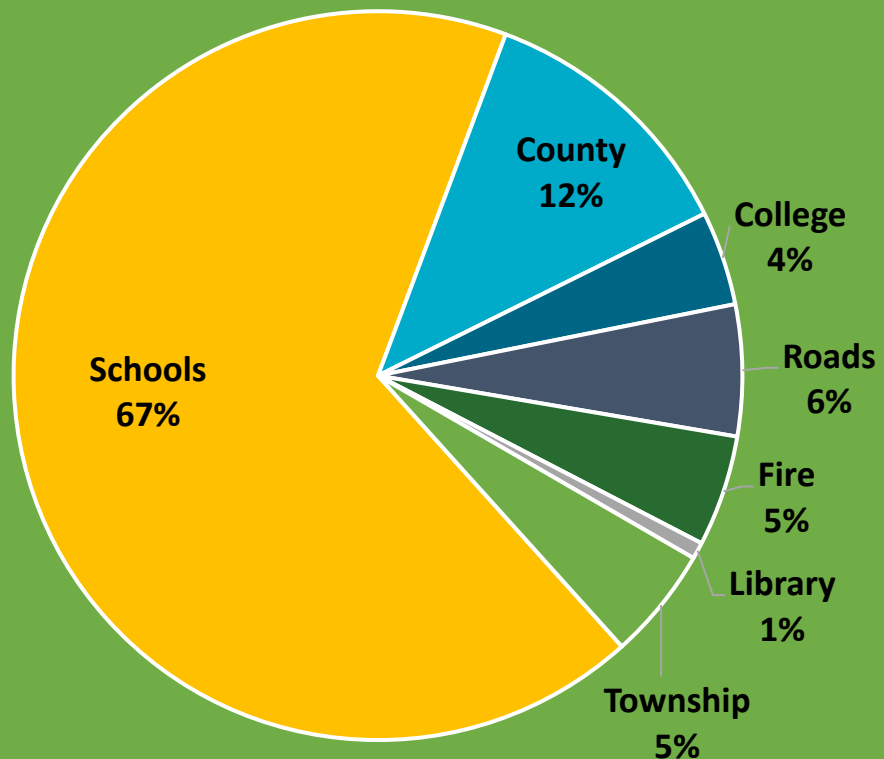

The SkyYield Wind project is estimated to produce hundreds of construction jobs and 4-8 permanent operations jobs. According to the U.S. Bureau of Labor Statistics, wind turbine technician is currently the second fastest growing job in the United States.

Energy Security and Reliability

Utilizing wind energy helps to diversify our domestic energy portfolio and reduce our dependency on fuel from foreign powers. Having diverse generation resources helps to maintain the reliability of the grid.
