

Curriculum Director Report
October 19th, 2020

Test Results

This is the month that we normally go over our State Assessment results. We were given a testing window, and we decided to test at the end of the window. We had not started testing yet, so we do not have any test results to share. I am hoping that we get some state testing data on those that took the new Science test.

School Report Cards

There will be a School Report Card this year. It will be released on October 30th. We will go over the School Report Card at the November meeting. We are free to release our ESSA Designations. For the 2019-20 school year all schools will receive the same designation as they did for the 2018-19 school year. All 4 of our schools are rated as Commendable. I have attached some changes for the 2020 School Report Card, as well as what will be on the 2020 School Report Card.

October 15th Curriculum Directors Meeting

New this year some of the area Curriculum Directors are going to try and meet 3 or 4 times a year. Topics for our October 15th meeting were Math and Reading Curriculum. We are hoping by meeting we can share what districts are doing.
