Re: Campus Planning & Boundary Realignment Timeline

Below is a proposed Campus Planning & Boundary Realignment Timeline.

First few weeks of school	Community Dialogue Input Meetings
September 4	Enrollment Data to Zonda Demographics
September 22	Board Workshop - Recommendation
Week of Sept 22	Neighborhood Meetings
September 29	Board Meeting
Week of Oct 6	Board Workshop -Campus Planning and Boundary Realignment Board Action

As we continue navigating the fiscal realities facing Coppell ISD, we have revised our timeline for decision-making related to campus planning and the district’s multi-year budget planning process. This revised timeline is being proposed for approval to align with the availability of updated beginning-of-year data from our demographer, which is essential for making well-informed decisions.

The updated timeline is intentionally structured to prioritize transparency, stakeholder engagement, and timely action. It reflects our commitment to keeping the community informed and involved every step of the way. This approach allows us to balance the urgency of addressing budget challenges with the thoughtful engagement our families, staff, and students deserve—ensuring that all decisions remain rooted in both financial responsibility and our district’s core values.

RECOMMENDATION: That the Coppell ISD Board of Trustees approve the revised Campus Planning & Boundary Realignment Timeline as presented.
