1. Strategic Plan – Special Education

Drew clarified a special education pilot program from the January 22 Board Workshop Strategic Plan presentation. Currently, special education teachers at every level (elementary, middle, high school, and PHASES), under the guidance of LOCS' special education supervisor, are piloting Unique Learning Systems (ULS), which is a curriculum for categorical classrooms aimed at aligning and centralizing resources and materials with student IEP goals and Lake Orion curriculum.

2. Middle of the Year Data Discussion

Drew shared preliminary MOY student achievement data in preparation for the full presentation to the Board of Education at the February 12 meeting.

3. Summer School Plan

An update was provided for summer school offerings for all three levels. Overall, most summer school staff will be returning; additionally, schedules and format for the elementary, middle, and high school programs will remain the same as last summer. The preliminary data review process for students qualifying for summer school will begin this month with a plan to communicate to families prior to Spring Break.
