

May 2017 Buildings and Grounds Update

New Equipment Update

Bryant: Experienced a break in on April 25, 2017. It was discovered April 26, 2017 by day shift custodian. Local authorities and stake holders were made aware of break in. Director of Facilities and Team quickly made sure school was properly ready for the school day. Please note Dr. Computer Custodians, Maintenance, Sonitrol and local window vendor help with process at Bryant Elementary School. Windows within several classrooms were restored by April 29, 2017. Please note cameras should have been reset due to local outage but this function were monitored by another department within the past. Sonitrol alarm and time clocks at school work properly and were checked several times to ensure process worked correctly.

Sandburg: New 2 inch shut off valves for each cut off for East and West (Drained valves to water for shut off in case of emergency. 80ft long pipe replaced thus far. Installed drain valve close to boil room. Replace 3 branches to shut off valves to 2 inch domestic water pipe.

Payment completed for IDPH fine.
