

School Board Meeting:

March 23, 2015

Subject:

Summer Food Program

Presenter:

Marilyn Splinter

SUGGESTED SCHOOL BOARD ACTION:

No action necessary

DESCRIPTION:

We have the opportunity to operate a Summer Food Program Open Site in Buffalo based on census data. The site would be located at Discovery Elementary School. The Open Site is for all children ages 1 to 18.

The Summer Food Program would bring new federal dollars into the district. This would replace the self-operated KidKare meals that have been in place for many years. The children attending the Discovery KidKare site would be eligible to participate. Summer Sun Block and Targeted Services students may choose to participate. The site is open for any child ages 1 to 18 to participate in breakfast and lunch, Monday through Friday, June 8-August 28, 2015.

The application portal at the MDE website will be open soon and applications for The School Meals Programs and Summer Food Program will begin.
