

Strategic Planning Timeline – Annual updates:

1. Implement School Board Self-Assessment on an annual basis - Assign self-assessment at **April work session**, report back in **May work session** – timing aligns closely with Superintendent evaluation process.
2. District and Building level goals - Review and realign/reprioritize goals in **May work session** - align with School improvement plans presented by Principals in **May regular session**.
3. Superintendent review process is already established to begin in **April** with Superintendent self-reporting on goals established the prior **August**. Board Review will then happen in **May work session or June regular session**.
