

Since the last B.I.S.D. Maintenance/Custodial monthly report of June 10, 2015, we addressed and/or completed the following:

The last (2) weeks has primarily been spent on receiving and installing several more freight line deliveries of product for the New Addition. We have also done major furniture moving in the High School and Annex in preparation of floor stripping and waxing. Likewise, we have moved furniture in the Elementary and Intermediate and have shampooed the carpets. As this is being written, we shampooing the Library and the High School's principal's office. Floor stripping will continue next week to complete the High School and then the Annex. Floor stripping will begin approx. mid July on the Junior High hallway and lab classroom after the new a/c and heating equipment has been installed.

We will be receiving the new window a/c and heating units for the Elementary building next week and will install as quickly as possible.

A major visitor's and our Junior High old football Field House renovation project was started this week with Amanda Sims taking the lead in its renovation.

We have looked at a couple of options on the addition of a restroom in the new Elementary Resource classroom in the New Classroom Addition. Will begin work on this as soon as possible.

Touch-up painting is being done in several classrooms campus wide and we have several plumbing projects on our books to begin after July 1.

The non-functioning a/c unit in the Auditorium will also be replaced by mid July.

Thank You for Your time and support,

Steve Giblin
Maintenance/Custodial Supervisor
