

BOARD REPORT 4/13/20

We had 6 trees thinned and lightened at the elementary for safety.

The Annex building roof and the drain paths on the old gym are sealed.

The transportation drivers are delivering food Monday thru Thursday to out of town kids. The drivers are also doing workbooks, and online training at home to help get their hours.

Janitors have done a deep clean in each building. They are currently painting and doing floor care.

We have been mowing and irrigating all grass. I have a meeting scheduled with Isaack Henry to get a cost for the auto timers to be installed at the football field.
