CHS Board Report March 2023

Academics and Instruction

- **AK STAR and PEAKS Science:** Our 9th graders will take their summative state assessment in English Language Arts and Math March 29-30 and April 5-6. Tenth graders will take their summative state assessment in Science April 4th. This year's AK STAR tests are computer adaptive, which means each test is individualized and adapted to find a student's zone of proximal development. We are pleased to have a more personalized test for CCSD students and students across the state.
- **Post Secondary Trip:** CHS counselor, Maria Riedel, is taking a large group of juniors to Anchorage to tour colleges and vocational schools. Students will also have the opportunity to meet with unions from a variety of trades. Johnny Rice is joining as chaperone, and we are grateful to him.

Climate and Culture

- **Surveys:** February in education is commonly known as "survey season." CHS students have the opportunity to participate in the state's Youth Risk Behavior Survey. Students, staff, and families were given the opportunity to participate in the School Climate and Connectedness Survey. Lastly, parents were given the opportunity to complete the district's survey on their student's teachers and principal.

Student Activities

- **Athletics:** Right now, a significant number of our students are on their way to the regional basketball tournament. Both basketball teams, drumline, cheer, and a large number of chaperones will be in Juneau representing Craig. Wish them luck!
 - **ACDC:** ACDC competed in the state competition last week with commendable results.
