

# Special Services Department Report

August 2023

Submitted by: Rebecca Rappold

## SPED Building Summer Project Updates

The Maintenance Department has completed many needed projects at the Special Services building during the summer. The upstairs has received new painting in the front office/entry as well as the staff offices. Also, new carpet has been installed throughout the upstairs. Department Secretary, Tracie Coursey has coordinated the SPED building summer projects in addition to replacing window shades and making needed purchases for staff. Inventory in the building was completed, surplus items were advertised, and shelving and cabinets were purchased to organize student supplies and special education records. During August the basement will be organized to house the speech/language department offices, meeting space, and remote learning classroom.
