

# Memo

**To:** Dr. Michael Robey  
**From:** Marisa Raymond, Food Service Coordinator  
**Date:** November 2, 2012  
**Re:** Healthy Breakfast 4 Kids Grant

---

The healthy Breakfast-4-Kids program was created to improve access to breakfast in schools nationwide as a means to lessen the negative impact of hunger on children across the nation.

In 2012 the Food Family Farming Foundation and Walmart Foundation partnered to grant 117 \$2,500 equipment grants to high need school for the purpose of assisting in the successful establishment of universal breakfast in the classroom programs.

Grant awardees may order \$2,500 worth of food service smallwares or equipment to help support implementing breakfast in the classroom with program partner Tundra Specialties.

Applications for the Healthy Breakfast-4-Kids Grants were completed by Marisa Raymond and submitted separately for all ten of our schools.

We are pleased to announce, of the 117 grants awarded nationwide, District 89 has been awarded ten.

The grant money was immediately available and we are working with Preferred Meals to determine, by school, what equipment is needed.
