

Timestamp	Which best describes your role?	Policy 3400 Extracurricular Activities Drug Testing	If you have any additional questions, comments, or concerns, please leave us your contact information and we will follow up.	Policy 3400F1 Extracurricular Activities Drug Testing Form
11/15/2024 14:47:30	Parent	I don't see any changes. The fact that kids will be warned of an upcoming test and have time to get urine in a bag from a friend is still present. This happened in the 2023 calendar year, I saw the mess that the bag made when it broke open as the student was driving. He still passed, despite recent marijuana use. If you are not going to get serious about the "no early warning" and "remaining under school supervision until producing a sample", then this policy isn't worth the paper it's printed on.		
11/15/2024 14:58:25	Parent	Leave as is	Three individuals on our school board need to start putting our school district before their personal agenda. You are an embarrassment to not only our school district but also our community. Stop acting like little children who don't get their way and start doing what's best for our kids.	Leave as is
11/15/2024 16:31:04	Parent	Agree		Agree
11/15/2024 17:56:57	Parent	No stay away from the kids...no reason to come near them with your corrupt healthcare workers/system	No chance	No and No...we will never give the education department this authority
11/15/2024 17:57:02	Parent	No stay away from the kids...no reason to come near them with your corrupt healthcare workers/system	No chance	No and No...we will never give the education department this authority
11/17/2024 17:04:57	Parent	I do not like the change of the word will to may. In my opinion this turns what should be a black and white policy into a gray area. By allowing administrators or coaches to determine the proper repercussions of a failed test, I believe this will turn into you will not have punishment if you are a good enough athlete, or your parents are louder, or you have always supported the school... this will become a policy where only some athletes are punished.	I also heard discussion about the possibility of getting rid of drug testing by Romona at the last board meeting and I am not in support of that at all. I believe drug testing is such a great deterrent for peer pressure to partake because a student can say, "I cannot take a hit because I could get drug tested" It makes the students have a built in excuse on why they don't want to do something. I also love this as a parent because if I my son or daughter tested positive it would allow me to get them the help that they need. Please recognize that this is a benefit to many students but getting rid of it or not have good consequences would eliminate those benefits.	
11/18/2024 7:57:14	Parent	YES	jasonweil@live.com	YES
11/18/2024 9:56:56	Parent	Looks good	At the last board meeting (11/12/24) Trustee Grissom said that she wanted to revisit this policy because 'it might deter kids from playing sports'. That is the most ridiculous thing I have ever heard in my whole life. As a parent I am constantly reminding my kid that sports are a privilege and he needs to keep on the right path to be allowed to play them. That means good grades, good attitude and good choices (including no drugs/alcohol/smoking). Even when I was a student athlete I knew that I had to keep my nose clean to keep playing. If we take that away then lets take it all away meaning that grades shouldn't matter and attendance shouldn't matter. Don't be ridiculous. Keep drug testing for student athletes. If that deters them from playing then maybe they should rethink their life choices.	Looks good
11/18/2024 16:20:42	Parent		Thank you for continuing this program . Students who are in athletics should not be taking illegal drugs.	
11/19/2024 10:06:18	Staff	thumbs up!		thumbs up
